

# Certification Request Form: Tizen 9.0 IoT Profile

## 1) Requestor Information

Company Name	ABC System Inc.
Department	R&D Laboratory
Job function (engineer, marketing, etc)	Engineer
Full Name	Gildong Park
E-mail Address	gd.park@abcsystem.com
Phone Number	+82-31-1234-5678
Request Date	2025-1-1
Device Description (Name, model / HW(chipset))	ABC Kiosk XXX999 / YYYchipset (ARM Cortex-A55 Quad-core)
Device Type (headed, headless, etc)	Kiosk (headed)
Tizen Platform Version	9.0

Requestor personal information will never be published for any other purpose. It can be used in case there are further questions about the submission.

## 2) TCT result submission checklist

Please check for each item that has been completed.

Note that each TCT MUST pass 100% for the Tizen IoT Profile implementation.

Type of TCT	TCT Requirement	Check if complete
.NET	1. Submitted C# TCT test results 2. Submitted C# TCT behavior test results	YES
Native	1. Submitted Native TCT test results 2. Submitted Native TCT behavior test results	YES

## 3) Compliance requirement checklist

Please check for each item that has been completed.

The below items except "OPTIONAL" ones MUST be supported on your device implementation and marked as complete in order to be accepted.

The "TCS Section" column indicates the section number of the requirement in the Tizen 9.0 Compliance Specification for IoT Profile.

TCS Section	TCS Requirement	Check if complete
2.8	[Headed] The WebView implementation is based on Chromium version 120 or higher and the original web exposed behavior from the Chromium is not altered.	YES
2.10	[Headed] The device supports a Task Manager key event. (OPTIONAL)	YES
	[Headed] The device supports a Home key event.	YES
	[Headed] The device supports a Back key event.	YES
2.11	The device follows the Linux standard security model.	YES
	The device follows Smack-based access control and process isolation.	YES
	The device meets the Tizen privileged information requirement.	YES
2.13	<p>If the device is able to connect to the SDK through USB and supports the following tools, write <b>SDK YES</b>.</p> <ul style="list-style-type: none"> <li>• Smart Development Bridge</li> <li>• Log View</li> </ul> <p>If the device is not intended to connect to the SDK, write <b>SDK NO</b>.</p>	SDK YES
3.1.1	The device has at least 512MB of RAM.	YES
	The device has at least 1GB of permanent memory.	YES
	The device allows an external device to access to the files in the shared media folder on the device. (OPTIONAL)	YES
3.1.3	The device supports network connectivity for accessing the internet.	YES
3.1.4	Native screen resolution of the display output: Width x Height (e.g. 1280x720)	1920X1080
3.1.5	The device supports any hardware or soft keyboard input from users.	YES
